FOUNTAIN OR PITCHERS

Unsafe Drinking Water

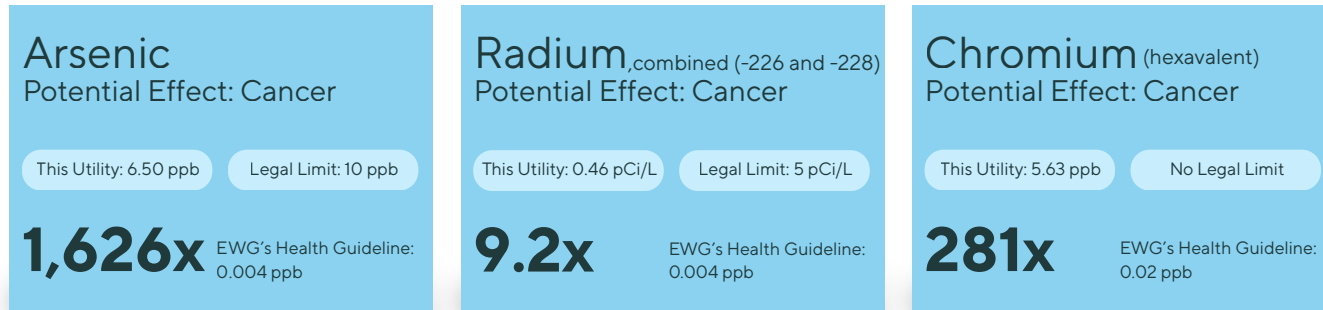

Environmental Working Group (EWG)

Easily search for and identify contaminants found in **your** local drinking water supply.

Example of Contaminant Level:

How concerned are you about PFAS, commonly known as 'forever chemicals,' in your local water supply?

Solution: Purified & Certified Water

Refrigerator

Are you aware that many standard refrigerator filters don't remove some of the most harmful contaminants, like PFAS, microplastics, and lead, that are commonly found in tap water?

Drinking Fountain

In your experience, how do concerns about germs impact fountain usage?

Filter Pitcher

Did you know that standard filter pitchers don't remove harmful contaminants, like PFAS, lead, and microplastics?

Tap Water

How do your employees feel about the taste and quality of the tap water?
